

P34 Mobile and AsiaPay form strategic partnership to deliver advanced mobile solutions

Makati City, Philippines, March 31, 2013 – P34 Mobile, People4u’s market-leading mobile applications and consulting service provider, and AsiaPay, the leading ePayment service and solution provider in Asia-Pacific, signed a strategic partnership agreement to provide clients with best in class payments and mobile solutions. The partnership will provide innovative mobile payment solutions to a new generation of their combined global customers.

“We are excited to partner with AsiaPay as they are the leader in electronic payments. The partnership between P34 Mobile and AsiaPay brings to life our vision to deliver cutting edge applications for all forms of mobile technologies to our customers in all market segments,” said Tom Thurnherr, General Manager of P34 Mobile.

“Our vast experience in developing mobile applications across various platforms-- Android, iOS, Blackberry and Windows--enable organizations of all sizes to rapidly deploy enterprise applications to mobile applications. Furthermore, our transactional mobile applications will give clients an option to use AsiaPay’s payment gateway to support large and complex systems. In turn, the complementing technologies from the two companies will deliver an advanced and strategic product offering to the marketplace,” added Thurnherr.

“As more businesses continue to move towards mobile and digital commerce, AsiaPay believes that partnering with P34 Mobile will benefit not just both companies but also the Philippine market and beyond. AsiaPay is looking forward to a closer business alliance with P34 Mobile, a synergy for the development of advanced mobile applications and related solutions with built-in secure payment processing. This meets our vision to well serve corporate entities in the Philippines and beyond, with the latest electronic payment values that maximizes business opportunities, efficiency and productivity,” said Joseph Chan, CEO of AsiaPay.

P34 Mobile and AsiaPay will be leveraging both solutions with their respective clients and expect to deploy their first joint customers in the first half of 2013.
